

Power in safe hands.

Welding for railway vehicles and their components.

Welding Certification EN 15085

Classification Level

CL1 in accordance with EN 15085-2

- Production, modification and maintenance of railway vehicles and components
- Weld seam quality CP A to CP D

Materialien

Material groups:

- 31 copper (Cu-ETP / Cu-OF)
- 23.1 / 22.3 aluminium-magnesium alloys

Schweissverfahren

141 Tungsten inert gas welding (TIG)

Anwendungen

- Welding of copper bus bars for railway vehicles
- Maintenance of railway parts

Qualifikationen

- 4 welders audited in accordance with EN ISO 9606-3

Referenzen

Bus bars for:

- Dosto (Bombardier Transportation)
- Talgo 250 (Bombardier Transportation)
- Matterhorn-Gotthard-Bahn
